

- 3-Terminal Regulators
- Output Current up to 100 mA
- No External Components
- Internal Thermal-Overload Protection
- Internal Short-Circuit Current Limiting
- Direct Replacements for Fairchild μA78L15 Series

## description

This series of fixed-voltage integrated-circuit voltage regulators is designed for a wide range of applications. These applications include on-card regulation for elimination of noise and distribution problems associated with single-point regulation. In addition, they can be used with power-pass elements to make high-current voltage regulators. One of these regulators can deliver up to 100 mA of output current. The internal limiting and thermal-shutdown features of these regulators make them essentially immune to overload. When used as a replacement for a zener diode-resistor combination, an effective improvement in output impedance can be obtained, together with lower bias current.

SOT-89 78L15CPK

electrical characteristics at specified virtual junction temperature,  $V_I = 23V$ ,  $I_o = 40mA$  (unless otherwise noted)

| PARAMETER                   | TEST CONDITIONS   | т‡          | 78L15 |     |       | UNIT |  |

|                             | I <sub>O</sub> = 1 mA to 40 mA                            | Full range  |       | ·   | 0.1   |      |  |

<sup>‡</sup> Pulse-testing techniques maintain T<sub>J</sub> as close to T<sub>A</sub> as possible. Thermal effects must be taken into account separately. All characteristics are measured with a 0.33-μF capacitor across the input and a 0.1-μF capacitor across the output. Full range for the 78L05 is T<sub>.J</sub> = 0°C to 70°C

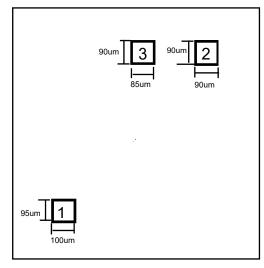

## absolute maximum ratings over operating temperature range (unless othewise noted)

| 78L15  | PARAMETER  | UNIT |
|--|------------|------|
| Input voltage, V <sub>I</sub>                                | 35         | ٧    |
| Virtual junction temperature range, T <sub>J</sub>           | 150        | °C   |
| Lead temperature 1,6 mm (1/16 inch) from case for 10 seconds | 260        | °C   |
| Storage temperature range, T <sub>stg</sub>                  | -65 to 150 | °C   |

## recommended operating conditions

| 78L15  | MIN  | MAX | UNIT |
|--|------|-----|------|
| Input voltage, V <sub>I</sub>                          | 17.5 | 30  | ٧    |
| Output current, IO                                     |      | 100 | mA   |
| Operating virtual junction temperature, T <sub>J</sub> |      | 70  | °C   |

## Pad Location 78L15

Chip size 1.0 x 1.2 mm

| Pad N | Pad Name | X (um) | Y (um) |
|-------|----------|--------|--------|
| 1     | Ground   | 95     | 100    |
| 2     | Input    | 820    | 1010   |
| 3     | Output   | 535    | 1015   |
